

ABSCONDER WARRANT CASELOAD

The Absconder Warrant Caseload focuses on cases in which the probationer has ceased to report and is in violation of the conditions of probation. When the probationer cannot be located within three months or less, a warrant is issued. The primary goal is location of offenders and resolution of their cases. Consideration is given to community safety, restitution owed to victims, and the nature of the criminal offenses.

Probationers are encouraged to call the Warrants Officer or their former Probation Officer to find out how to address this legal issue which can impact their lives in many negative ways. (They may simply turn themselves in at the nearest Law Enforcement agency.)

Information is welcomed from family members and law enforcement about the location of absconders:
